

Mental Health and Higher Education

Campus Emergency Planning 101

Seminar Objectives

- To review mental health-related recommendations of the 2007 Campus Security Task Force (CSTF) Report
- To identify resources for campus implementation of the CSTF report
- To provide an overview of mental health roles and contributions in emergency planning and response efforts including issues unique to campus environments
- To review civil commitment and mental health referral procedures
- To promote collaboration among campus officials, local emergency management officials and the mental health community to support improved planning and response capabilities
